

FAA Safety Team Presents: General Aviation Pilots meeting.

The two hour session will cover important factors concerning safety awareness/procedures when flying in the mountains and through a mountain pass such as, Anaktuvuk or Atigun. Runway Safety will also be discussed for large airports and small remote strips.

Directions: The seminar will be held in room 201 Hutchison on Geist Road - upstairs at the extreme northeast end of the building. Parking is in the lot closest to the north end of the building, marked as the University of Alaska Fairbanks Community and Technical College. Enter building at the east end of the parking lot, then proceed up the stairs on your left then proceed left to end of hallway.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
